

No. KVAOWA/GGN/2025/33/147

Dated: 06th May, 2025

NOTICE

Subject: Safety Advisory – Removal of Flower Pots from Railings, Stairs, and Common Areas.

Dear Residents,

This is to bring to your attention an important safety advisory regarding the placement of flower pots within the **residential premises** and we seek your cooperation in this.

It has been observed that several flower pots are either hanging or placed precariously on the edges of balcony railings and ledges of the flats. While we appreciate your efforts in enhancing the aesthetic appeal of the flat, such placements pose significant safety risks, including:

- **Risk of falling objects:** Pots can accidentally fall due to wind, rain, or minor vibrations, potentially injuring people, risk of life or damaging property.
- **Violation of safety guidelines:** Hanging or loosely placed pots are not compliant with recommended residential safety protocols.

In light of the above, all residents are hereby requested to:

1. Immediately remove any flower pots hanging from balconies, placed on the outer edges of railings of flat etc.
2. As per earlier notice remove all pots placed in common areas such as hallways, entrances, and shared platforms
3. Ensure that all potted plants are placed securely on flat, stable surfaces within the balcony space
4. Avoid any arrangements that might risk falling objects or obstruct evacuation routes.

We urge all residents to comply with this advisory by **May 10, 2025** to ensure a safe living environment for everyone.

Your understanding and cooperation in maintaining community safety is greatly appreciated.

Thank you for your attention.
